H&K AG

**PRESS RELEASE**

Oberndorf am Neckar, November 26, 2026

**Heckler & Koch Continues its Growth Path in the First Nine Months (Q1-Q3 2026)**

- Order Intake: 767.3 million euros (Q1-Q3 2025: 460.9 million euros)
- Revenue: 396.4 million Euros (Q1-Q3 2025: 279.1 million euros)
- Operating Result (EBITDA): 95.0 million euros (Q1-Q3 2025: 52.6 million euros)
- Earnings After Tax (EAT): 55.8 million euros (Q1-Q3 2025: 25.4 million euros)
- Investment program at the headquarters and locations in the UK and the USA on schedule

H&K AG continued its profitable growth path successfully in the first nine months of the 2026 fiscal year. The persistently high demand and realized order intake form a strong foundation for further business development in the coming years.
The good after-tax result (EAT) is improved by positive one-off effects in taxes and tariffs in 2026. With rising depreciation from strong investment activities and the discontinuation of positive one-off effects, a slightly lower after-tax result (EAT) is expected in 2027 with growing operating profit. With the “HK Evolution” investment program (235 million euros until the end of 2028) at its headquarters in Oberndorf and the expansion of its industrial presence in the UK and the USA, Heckler & Koch is consistently continuing its long-term investment and growth strategy in the future.

Dr.-Ing. Jens Bodo Koch, CEO of H&K AG:
"Our economic strength enables us to continue investing in our production capacity, innovative technologies, and the skills of our employees."
