**Heckler & Koch wins Belgian Customs tender**

In May 2022, the tender for a new pistol armament of the Belgian customs was published.

In addition to Heckler & Koch, there were other competitors, against which the SFP9 TR from Heckler & Koch was able to prevail in the end. The previous service pistol carried by Belgian Customs was the FN High Power.

A first tranche of service pistols is expected to be delivered in September 2023.

Heckler & Koch is pleased about the order to support security forces in Europe with the best products for their work.

**Heckler & Koch**

Eine Welt in Demokratie und Freiheit, bestmöglich geschützt von Frauen und Männern, ausgerüstet mit den Waffen von Heckler & Koch.
